About

Fleetwood Fernandez believes in the power of a good idea, a firm wit, and plenty of research.

Founded by partners Hunter Fleetwood and Mariapaz Fernandez-Trillo, Fleetwood / Fernandez provides architectural services for the design and construction of buildings and interiors. The office draws upon a wide breadth of experience in retail, commercial, residential and art spaces to create projects that are free of stylistic obligation.

Fleetwood / Fernandez is committed to an iterative approach to design that engages idiosyncrasies of program, site, material qualities and local construction methods to deliver projects of lasting quality. The office has built work in Spain as well as the USA.
